Average Energy Prices, Chicago-Gary-Kenosha — February 2017

Gasoline prices averaged \$2.420 a gallon in the Chicago-Gary-Kenosha area in February 2017, the U.S. Bureau of Labor Statistics reported today. Assistant Commissioner for Regional Operations Charlene Peiffer noted that area gasoline prices were up 71.0 cents compared to February 2016 when they averaged \$1.710 per gallon. Chicago area households paid an average of 15.2 cents per kilowatt-hour (kWh) of electricity in February 2017, comparable to the 15.3 cents per kWh paid in February 2016. In February, the average cost of utility (piped) gas was 88.5 cents per therm, up from its average price of 73.3 cents per therm a year earlier. (Data in this release are not seasonally adjusted; accordingly, over-the-year-analysis is used throughout.)

At \$2.420 a gallon, prices for gasoline in the Chicago area were 6.0 cents higher than the national average of \$2.360 a gallon in February 2017. With the exception of February 2016, when Chicago area gasoline prices were lower than the national average by 12.3 cents, Chicago gasoline prices in the previous four years (2013-2016) in February have exceeded the national average, ranging from 11.7 cents to 18.6 cents more. (See [chart 1.](#))

Chart 1. Average prices for gasoline, Chicago-Gary-Kenosha and the United States, 2013-2017 (as of February)

Source: U.S. Bureau of Labor Statistics.

The 15.2 cents per kWh that Chicago households paid for electricity in February 2017 was 12.6 percent higher than the nationwide average cost of 13.5 cents per kWh. With the exception of February 2014, when Chicago area electricity costs were comparable to the national average, Chicago electricity costs in the previous four years (2013-2016) in February have exceeded the national average, ranging from 14.2 percent to 24.6 percent more. (See [chart 2](#).)

he **Chicago-Gary-Kenosha, Ill.-Ind.-Wis., Consolidated Metropolitan Statistical Area** consists of Cook, De Kalb, Du Page, Grundy, Kane, Kankakee, Kendall, Lake, McHenry, and Will Counties in Illinois; Lake and Porter Counties in Indiana; and Kenosha County in Wisconsin.

Historical average energy prices for the U.S. and select metropolitan areas are available at www.bls.gov/regions/midwest/data/averageenergyprices_selectedareas_table.htm.

The Consumer Price Index for March 2017 is scheduled to be released on Friday, April 14, 2017.

Technical Note

Average prices are estimated from Consumer Price Index (CPI) data for selected commodity series to support the research and analytic needs of CPI data users. Average prices for electricity, utility (piped) gas, and gasoline are published monthly for the U.S. city average, the 4 regions, the 3 population size classes, 10 region/size-class cross-classifications, and the 14 largest local index areas. For electricity, average prices per kilowatt-hour (kWh) are published. For utility (piped) gas, average prices per therm are published. For gasoline, the average price per gallon is published. Average prices for commonly available grades of gasoline are published as well as the average price across all grades.

All eligible prices are converted to a price per normalized quantity. These prices are then used to estimate a price for a defined fixed quantity. The average price per kilowatt-hour represents the total bill divided by the kilowatt-hour usage. The total bill is the sum of all items applicable to all consumers appearing on an electricity bill including, but not limited to, variable rates per kWh, fixed costs, taxes, surcharges, and credits. This calculation also applies to the average price per therm for utility (piped) gas.

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.
